

American Indian Science & Engineering Society

**Welcomes you back with an exciting workshop by
Exploring Renewable and Sustainable Energy!**

Place:

Hogansburg Akwesasne Volunteer
Fire Department (HAVFD)

Time:

4:00 p.m. – 6:00 p.m.

Date:

Tuesday, September 30, 2014

**The Johnson O'Malley Program is sponsoring Chip Malone to
present on the remarkable advancements in bio fuel technology, by demonstrating the
wonderful uses of the Bio Lite Camp Stove.**

This advancement in renewable energy demonstrates how
understanding bio energy (the Sun) can provide learning about energy conservation, and ex-
ploring and experiencing the use of

hi- tech bio fuel stoves. Along with preparing healthy foods
(such as veggie kabobs, s'mores, and fresh popped pop corn)

Native American students in grades 7-12 and parents are
welcomed to be part of our American Indian and Science and
Engineering Society (AISES) Program kick-off.

Call the JOM Office at 518-358-2272 ext. 252

If you have any questions.
