

# Special Presentation

## Adverse Childhood Experiences Study by Dr. Robert Anda, MD

Adverse childhood experiences have a profound negative effect on health and well-being; and are a major factor for past, current and future health behaviors, social problems, disease and early death. Join us for a community discussion on the effects of childhood trauma on an individual's lifespan and efforts towards prevention and recovery.

5:00 - 7:30 p.m.; Monday, November 9, 2015  
*Tsi Tetewatakens* (Senior Center), Akwesasne, NY

Meal Provided. Door prize - iPad. Presentation intended for mature audience. Child care available by calling Charlene White, IPP, at (518) 358-3416.

A Presentation of the Third Annual Ionkwahwatsire Summit, *Acknowledging Adversity, Fostering Resiliency* sponsored by the Saint Regis Mohawk Tribe and Seven Dancers Coalition.
