

**SRMT CHILD SUPPORT STANDARDS CHART**  
Prepared by  
Saint Regis Mohawk Tribe Child Support Enforcement Unit

This Child Support Standards Chart can be used to determine an approximate annual child support obligation. For a detailed legal explanation of all factors used by the court in calculating a child support obligation you should consult the SRMT Child Support Act . Please note, for incomes that fall within the stated chart intervals, use of the percentages listed below will result in a more precise calculation than the interval amounts included in this chart.

The 2020 poverty income guideline amount for a single person as reported by the United States Department of Health and Human Services is \$12,760 and the 2020 Self Support Reserve is \$17, 226

Note: If the amount determined falls between the FPL and the SSR, then the presumptive amount will be \$25.00 per month (\$300.00 annually). If the amount falls below the FPL, then the presumptive amount will be \$0.00 and Non-Cash Support may be considered per the SRMT Child Support Guidelines. If the amount is greater than the SSR, then the low income limitations do not affect the obligation and the presumptive amount will be the Child Support Obligation as determined.

Child Support Percentages

One Child	17%
Two Children	25%
Three Children	29%
Four Children	31%
Five + Children	No less than 35%
